The Future Is Changing,  
So Does The Way We Eat.

# *The PHUTURE™ Story*

**PHUTURE™ (Phuture Limited)** is ranked as one of the top 500 global food technology innovation companies and was recently ranked in the top 100 alternative protein companies in the 2020 list by The Good Food Institute, Asia.

Founded in 2019, PHUTURE™ is a company dedicated to the research and development, production and distribution of plant-based alternative protein to consumers and the food services industry. It currently has established teams and operation centres in Singapore, the United States and Malaysia.

The company was formed by a group of dreamers and entrepreneurs of various backgrounds and ages with shared values of spreading healthy food concepts in alignment with green sustainable development and protection of the earth's ecology.

The founding team had a simple dream of starting a company that develops and produces “plant-based meat”, and thus, dubbing themselves as “味来Future”, Phuture™ Limited was born.
